PROFILE

I am looking for a junior full-stack role where I can build applications alongside an experienced team and learn how user needs and business priorities shape technical decisions.

TECHNICAL SKILLS

Languages:	JavaScript, TypeScript, SQL; project experience with Python, Go and Rust.
Frontend:	HTML, CSS, React, Vite, Tailwind CSS, Bootstrap, React Router, Recharts, i18next.
Backend and data:	Node.js, Express, PostgreSQL, MongoDB, Mongoose, Joi.
APIs and state:	REST APIs, OpenAPI, Axios, React Context, TanStack Query, Postman, Insomnia.
Graphics / desktop:	MediaPipe, OpenCV, Three.js, Tauri.
Testing and tools:	Playwright, Vitest, Git, GitHub Actions, ESLint, Prettier.
Deployment:	Docker Compose, Linux (Ubuntu), NGINX, Caddy.

SELECTED PROJECTS

Flowento smart mirror

Team project | React, Express, MongoDB

Private project. Code and 3D model details available on request.

- Implemented mirror-management screens, feature routing and React Context providers for data fetching, loading states, filtering and pagination.
- Built REST endpoints with Mongoose models and Joi validation, and integrated device sharing and user invitations.
- Created audit and statistics views with charts, time-windowed database aggregations, and CSV, XLSX and PDF exports.

Reaction game and statistics

Personal project, AI-assisted | React, Tailwind CSS, Go, PostgreSQL | Code | palyndav.dev

- Defined and validated a five-round game with server-calculated scores, player statistics, filtering and rate limits.
- Added persistent score retries and duplicate-safe submissions; tested score recovery after API restarts.
- Deployed with Docker and HTTPS on an Ubuntu VPS; GitHub Actions runs unit, database and Playwright tests.

Hand Controller

Bachelors Thesis prototype which will be integrated into the mirror, AI-assisted | Rust, Tauri, TypeScript, MediaPipe

- Developed configurable webcam gesture controls, mapping hand landmarks to mouse and keyboard actions.
- Evaluated gesture timing and pipeline latency, with diagnostic views and configuration profiles for controlled Windows testing.
